

ENVIRONMENTAL POLICY

The Refuse Disposal Division of the City of San Diego's Environmental Services Department is entrusted with providing high quality solid waste disposal services for the citizens of San Diego and the greater San Diego metropolitan area. We are dedicated to carrying out this responsibility in a manner that demonstrates true leadership in environmental management while continuing to provide the highest level of service. By implementing and maintaining an Environmental Management System, we are committed to an ongoing effort of promoting environmental responsibility as an organization as well as emphasizing a heightened environmental awareness to all interested parties and stakeholders.

We will demonstrate our commitment to this policy through:

- Regulatory Compliance – We will meet or exceed all applicable regulatory requirements,
- Prevention of Pollution – We will identify and prevent or minimize pollution in all areas attributed to our operations, wherever feasible, and
- Continual Improvement – We will continue to seek out ways to improve our environmental performance using this policy as the basis upon which we set our objectives and targets.

This policy will be conveyed to all Refuse Disposal Division staff, our consultants and contractors and made available to regulatory agencies, the public, or other interested parties upon request.
